EXPERIENCE

Software Developer | *Angular, Node, MySQL*
Tender HealthTech (USV Pvt. Ltd.)

Sept 2025 - March 2026
Mumbai, Maharashtra

- Developed an **Embeddable Dashboard Designer** enabling users to connect databases, perform joins, apply filters, and perform **data modeling features** and enabled **interactive chart filtering and drill-down**.
- Built support for **calculated measures** using **15+ operators** and **7+ data-driven chart categories**.
- Leveraged **SOLID principles** and system design concepts to build scalable, flexible and maintainable applications increasing code quality by 30%.
- **Reduced dashboard creation time by 90%** by introducing a code-free, self-service dashboard builder.
- Worked on a **Patient Support Program (PSP)** application, developing **multi-role dashboards, patient onboarding, program workflow management**, serving clients like **Abbott** and **USV Pvt. Ltd.** and **200+ users**.

Software Developer | *Angular, RxJS, JSON API (In-house), TypeScript*
Chemelex (nVent Thermal India Pvt. Ltd.)

July 2024 - March 2025
Mumbai, Maharashtra

- Designed and produced advanced features including **nested tree structures**, adhering to UX best practices to improve usability for **100+ designers**.
- Incorporated reactive programming patterns using **RxJS** for **asynchronous programming and event handling**, and applied **System design principles** leading to code optimization by 20%.
- Adhered to Test-Driven Development (**TDD**) and Behavior-Driven Development (**BDD**) methodologies while implementing **best coding practices and coding standards to reduce production bugs by 30%**.
- Migrated **unit tests** from Jasmine to **Jest**, increasing **code coverage** to more than **90%**.
- Migrated functional tests to **Cypress**, **cutting test files by 50%** and improved edge case coverage.
- Worked within an **Agile framework**, gave sprint demos, mentored junior developer and did **code reviews** as part of the Buddy Program.

SKILLS

Languages	TypeScript, JavaScript, C++, Python, HTML, CSS, SQL
Technologies	Angular, React.js, Django REST Framework, MySQL, Git, Cypress, Jest, Angular Material
Concepts	OOP, Data Structures and Algorithms, Database Management Systems, Agile/SDLC, System Design

PROJECTS

Roofix | [GitHub Link](#) | *React, Django REST Framework, Django Channels, WebSockets, Material UI*

- Created a **full stack** real estate platform where users can browse, filter and favorite rental and sale properties.
- Built **hierarchical, reusable components** and managed state using **React hooks**, accelerating feature delivery and reducing UI inconsistencies by 35%.
- Integrated **lazy loading, dynamic routing** and **multi-parameter filtering** for efficient property search.
- Delivered REST APIs using **Django REST Framework** with **JWT authentication** for property listings, filtering.
- Enabled **real-time updates** of new property listings using **WebSockets** and **Django Channels**.

EDUCATION

Bachelor of Technology: Computer Engineering | **CGPA - 9.5/10**
Dwarkadas Jivanlal Sanghvi College of Engineering, Mumbai.

2020 - 2024

ACHIEVEMENTS

Solved over **250+ DSA problems** across coding platforms like [LeetCode](#) and [GeeksforGeeks](#).

MHT-CET | **99.6 percentile**

2020
